## **YOUR WATER ANALYSIS AT A DISCOUNT!**

Estérel, September 4, 2020 – Given the pandemic situation this summer, we were forced to cancel our popular *Fête des Citoyens* in July. The Environment Committee (CCE) did however suggest to Council that the water-testing station at our usual reduced price, be available as in years past.

We have commissioned H<sup>2</sup>Lab from Sainte-Agathe-des-Monts for a bacteriological analysis of your water that will cost you \$45 plus tax. This represents an almost 50% discount off the regular price.

How to participate: (Discount will be available as of September 10, 2020)

1. Buy your analysis online: (<https://boutique.h2lab.ca/collections>).  
Choose "Analyse d'eau potable/Drinking water analysis".  
Select option 1 "Potabilité (Microbiologie)/Drinking water Microbiology" at \$80.  
When you check out, use the code **ESTEREL2020** for the discount. You will be given an order number. Save this.
2. Pick up your test kit:
  - At City Hall: September 10-11, 8:30AM-12:00PM 1:00PM-4:30PM
  - At Parc Thomas-Louis-Simard, 40 Chemin des Deux-Lacs: September 13, 1PM-3PM
3. Take your water sample on **September 13, 2020** and write your order number on the container. Complete your analysis order online at the client's portal: (<https://client.h2lab.ca/>).
4. Return your water sample to CCE members at Parc Thomas-Louis-Simard, 40 Chemin des Deux-Lacs, **on September 13 between 1PM-4PM.**

The city will transport your water samples to the laboratory for analysis and the results will be sent to you via email.
