HIGH-SPEED INTERNET

GOOD NEWS!

Dear citizens,

Good news!

The High-Speed Internet file is moving forward.

Cogeco has finally received the required permits to access the existing infrastructures, thus enabling them to proceed with the installation of optical fiber for homes in the Lac Dupuis sector, on avenue and place d'Anjou, on chemin Fridolin-Simard as well as on avenue des Ardennes.

According to Cogeco, work should start in the upcoming days, and home installations should be completed by the end of the year or beginning of next year.

Kindest regards,

Joseph Dydzak
Mayor
